1MORE FIT SE OPEN wireless headphones (white)

1MORE FIT SE OPEN wireless headphones (white)

Discover a new sound quality with the TWS 1MORE FIT SE OPEN wireless headphones. They feature 14.2-millimeter dynamic DLC diaphragm drivers that deliver stunning sound. Thanks to a low-frequency enhancement algorithm, you'll appreciate powerful bass in a new way. The 4 noise-canceling microphones allow you to make phone calls with ease, and the powerful battery provides up to 30 hours of use. Bluetooth version 5.3 guarantees a stable connection. In addition, the open design of the equipment and practical ear hooks increase the comfort of use. An additional advantage is IPX5-level resistance, allowing you to listen to music in almost any conditions.

New sound quality

Improve your mood with excellent sound quality. The 1MORE FIT SE OPEN headphones offer an advanced DBB bass enhancement algorithm and 14.2mm dynamic drivers with DLC diaphragm. All this translates into exceptional sound quality with a distinctive, energetic sound. In addition, the rigid DLC diaphragm guarantees better response to variable tones and extraordinary sensitivity, and as a result - accurately reproduces every detail. Also noteworthy is the advanced directional sound technology, which provides greater privacy when listening to the audio of your choice and enhances the performance of the headphones.

4 noise-canceling microphones

With 4 built-in MEMS microphones and an intelligent noise cancellation algorithm, the 1MORE FIT SE OPEN headphones take the quality

of phone calls to a whole new level. You can rest assured that unnecessary background noises will be effectively minimized and every spoken word will be faithfully reproduced. Forget about interference and talk freely on the phone anywhere!

Bluetooth 5.3

1MORE headphones use the latest Bluetooth 5.3 technology, providing instant connectivity and effective noise immunity. The wireless range of 10 meters allows you to move freely while listening to music. Forget about connection problems and enjoy great sound no matter where you are.

Long runtime

Let music accompany you during a variety of activities. One charge is enough to keep the 1MORE headphones running for up to 10 hours. You can extend this time to 30 hours using the included charging case. Say goodbye to limitations and enjoy exceptional performance!

Innovative ergonomic design

Thanks to its open design, the FIT SE OPEN headphones do not go through the ear canals, which greatly increases the comfort of use. The weight of a single earphone is only 10 grams, and the thoughtful design with a gentle curve makes it fit perfectly in the ear, ensuring stability during physical activity. You also don't have to worry about uncomfortable pressure. Importantly, the transmission of sound without vibration on the bone eliminates disturbances in spatial perception. The solutions used also allow you to stay in touch with your surroundings, which significantly increases safety during bicycle tours.

Intuitive operation

Conveniently change songs, adjust volume, answer incoming calls, or activate the voice assistant with a single tap on the corresponding handset. It's also possible to customize touch settings from the 1MORE MUSIC app.

IPX5 water resistance

1MORE headphones are distinguished by their IPX5-level sweat and moisture resistance. This means you can confidently use them during an intense workout without worrying about the effects of sweat or changing weather conditions. Let your favorite songs accompany you in any situation!
