

## LEFEET P1 submersible scooter

LEFEET P1 submersible scooter

Ref: 6973895610729

### LEFEET P1 underwater scooter

LEFEET P1 is a revolutionary solution for lovers of underwater adventures. Its modular design, versatility, convenient power supply and easy installation make it the perfect choice for anyone who wants to explore the underwater world in new and exciting ways. Choose the LEFEET P1 scooter and enjoy unparalleled comfort and freedom during every immersion.

### Innovative modular design

Feel the freedom of customization that LEFEET P1 offers with its innovative modular design. This advanced scooter is designed with versatility in mind, allowing you to mix and match components to suit your unique needs. LEFEET P1 introduces a range of modes that will redefine your underwater adventures, giving you complete control over every aspect of your immersion.

### Versatility and comfort

The LEFEET P1 is a versatile tool that can be used in several different ways. With its lightweight design (it weighs just 2.4 kg) and compact dimensions, the LEFEET P1 provides unparalleled comfort as you explore the underwater world. Its ergonomic design makes it not only easy to maneuver, but also does not weigh the user down, allowing for longer dives.

### Power efficiency and flexibility

The 100 Wh battery provides a long runtime and an impressive speed level of about 2 meters per second, and the Dual Jet mode increases it to 2.7 m/s. A Type-C adapter is included, which not only powers the device, but also acts as a 20,000 mAh powerbank. This allows you to charge smartphones, pads, laptops and other devices without worrying about running out of power.

#### Easy installation and operation

The LEFEET P1 is distinguished by its clever quick-connect design, which allows easy installation of the battery and accessories without the need for additional tools. This will save you time and give you maximum convenience in use.

#### Included
