LEFEET P1 XR underwater scooter

The LEFEET P1 XR is a revolutionary solution for underwater adventurers. Its modular design, versatility, convenient power supply and easy installation make it the perfect choice for anyone who wants to explore the underwater world in new and exciting ways. Choose the LEFEET P1 XR scooter and enjoy unparalleled comfort and freedom during every immersion.

Innovative modular design

Feel the freedom of customization that the LEFEET P1 RX offers with its innovative modular design. This advanced scooter is designed with versatility in mind, allowing you to mix and match components to suit your unique needs. The LEFEET P1 RX introduces a range of modes that will redefine your underwater adventures, giving you complete control over every aspect of your immersion.

Versatility and comfort

The LEFEET P1 RX is a versatile tool that can be used in several different ways. With its lightweight design (it weighs just 3.2 kg) and compact dimensions, the LEFEET P1 RX delivers unparalleled comfort as you explore the underwater world. Its ergonomic design makes it not only easy to maneuver, but also does not weigh the user down, allowing for longer dives.

Power efficiency and flexibility

The 160 Wh battery provides a long runtime and an impressive speed level of about 2.3 meters per second, and the Dual Jet mode increases it to 3 m/s. A Type-C adapter is included, which not only powers the device, but also acts as a 20,000 mAh powerbank. This allows you to charge smartphones, pads, laptops and other devices without worrying about running out of power.

Easy installation and operation

The LEFEET P1 RX is distinguished by its clever quick-connect design, which allows easy installation of the battery and accessories without the need for additional tools. This will save you time and give you maximum convenience in use.
