Diagnostic Scanner OBD2 Bluetooth Ancel BD310

Ref: 5906168439148

Ancel BD310 OBD2 Bluetooth Diagnostic Scanner

Ancel BD310 is a state-of-the-art OBD2 diagnostic scanner that uses Bluetooth technology to connect to smartphones and tablets. The device allows fast connection and access to vehicle data, which allows comprehensive fault diagnosis and real-time monitoring of engine performance.

Comprehensive diagnostic functions

The BD310 scanner offers a wide range of diagnostic functions, including reading and clearing engine fault codes, an I/M readiness test prior to emissions inspection, and live monitoring of parameters such as engine temperature, vehicle speed and fuel pressure. These functions are available both on the device's built-in display and via a mobile app.

Practicality and ease of installation

The BD310 features easy installation thanks to wireless technology and a magnetic mount that keeps the device stable and secure while on the road. The device's simple setup and mobility make it ideal for people who travel frequently and need constant access to their vehicle's diagnostic data.
