PGYTech magnetic phone holder (green)

Discover new possibilities with the PGYTech Magnetic Phone Holder - the perfect tool for any mobile photography enthusiast. Weighing just 47.2 grams and 6.1 mm thick, this lightweight mount combines a compact design with versatile functionality that will surprise even the most demanding users. Thanks to its innovative infinite swivel mechanism, the mount allows you to freely position your phone at any angle, which opens up endless possibilities for creating exceptional shots

### Versatility in any situation

The PGYTech mount allows you to use your phone in different modes to suit your needs. Desk stand mode is ideal for video conferencing, vlogging or watching videos, providing stable support and comfortable use. Overhead mode, with a tilt angle of up to 30°, allows for creative overhead shots and easy time-lapse photography. In Briefcase mode, the grip allows for a new way of filming from a low perspective, challenging you to capture unique shots. In addition, Selfie Stick mode with an expandable arm reaching up to 30mm allows you to seamlessly capture every exciting moment.

### Comfort and full control

The mount features an elastic mesh strap, allowing you to easily operate your phone with one hand, freeing up your thumb and giving you full control of the camera. With the ability to switch between landscape and portrait mode, the mount offers additional functionality,

ideal for different user needs.

#### Reliable stability

The innovation of the PGYTech mount also lies in its stability. The use of N52 neodymium magnets and compatibility with the MagSafe system ensures a solid connection with a vertical pulling force of up to 12N. A super-thin magnetic ring is also included, making the mount compatible with both Apple and Android devices, ensuring versatility of use.

#### Included:

Magnetic holder Elastic strap Magnetic ring for your phone User manual
