Transformers TF-G06 wireless headphones (black)

Transformers TF-G06 wireless headphones (black)

Transformers TF-G06 are wireless headphones that combine modern technology, stylish design and exceptional sound quality. They are an ideal choice for lovers of good sound who appreciate both aesthetics and functionality. The latest Bluetooth 5.4 technology ensures a stable wireless connection, and the 40-millimeter drivers guarantee stunning audio. All this makes the TF-G06 headphones ideal for listening to music, watching movies and more!

Advanced Bluetooth 5.4 technology

Transformers TF-G06 use Bluetooth 5.4 technology, which guarantees a fast and stable connection to your device. As a result, you can enjoy high quality audio without lag, as well as a longer range of up to 10 meters. What's more, the headphones automatically connect to your equipment after the first setup, allowing for fast and hassle-free daily use. You will successfully use them not only while listening to music, but also while playing games!

Crystal clear conversations

Built-in microphones supported by AI and advanced signal processing technology ensure excellent call quality. Whether you're talking on the move or in a noisy environment, the Transformers TF-G06 guarantee clear and crisp sound, eliminating ambient noise and interference. This can make every conversation you have more relaxed and comfortable!

All-day wearing comfort

Ergonomic protein leather earcups and an adjustable stainless steel headband make the Transformers TF-G06 headphones extremely comfortable to wear, even for extended periods of time. They are also distinguished by their lightweight, foldable design, making them ideal for everyday use, whether at home or on the go. No matter where you are, you can enjoy comfortable and convenient use!

Amazing sound effects

The Transformers TF-G06 headphones are equipped with 40mm drivers that provide great audio quality. From deep bass to crystal clear highs, they guarantee an exceptionally wide sound field, making them an ideal choice for true audiophiles. The use of high-quality PET diaphragms translates into amazing results that will take you to a whole new dimension of musical experience.

Don't worry about power supply

Using low power consumption technology and a powerful 250 mAh battery, the Transformers TF-G06 headphones can run for up to 8 hours on a single charge. When needed, you can also easily switch to wired mode and listen to music without unwanted interruptions - just use the included 3.5mm audio cable. This is ideal for those who don't want to worry about charge levels during long trips or a busy day!

Wide compatibility

It doesn't matter what devices you use on a daily basis. The TF-G06 headphones will work in almost any situation! You can easily connect them to most Android, Windows or iOS devices. With Transformers you don't have to limit yourself!
