

Bramka Matter ZigBee Bridge Ultra SONOFF ZBBridge-U (RJ45 LA

Ref: 6920075741896

Bramka Matter ZigBee Bridge Ultra SONOFF ZBBridge-U (RJ45 LAN, 1.5 GHz, 1 GB RAM, 8 GB)

Matter ZigBee Bridge Ultra Gateway SONOFF ZBBridge-U (RJ45 LAN, 1.5 GHz, 1 GB RAM, 8 GB)

SONOFF ZBBridge-U is an advanced Zigbee gateway that connects Zigbee devices to the Matter ecosystem, enabling integration with popular smart home platforms such as Apple Home, Google Home, Amazon Alexa and SmartThings. This allows you to control all your devices from a single app or with voice assistants. The product allows you to connect as many as 256 devices and features a range of up to 200 meters.

Performance at the highest level

The gateway is equipped with a processor clocked at 1.5 GHz, 1 GB of DDR4 memory and 8 GB of eMMC internal memory. This ensures smooth processing and reliable execution of even the most advanced automation scenarios! It can also easily support up to 256 devices. In addition to Wi-Fi connectivity, the gateway offers an RJ45 Ethernet port, which guarantees a stable and fast network connection. As a result, your smart home devices will work without delays, and automations will be implemented instantly.

Integration with the Matter ecosystem

ZBBridge-U enables Zigbee devices to integrate with the Matter ecosystem, allowing them to work with various smart home platforms. This allows you to control your devices with Siri, Google Assistant or Amazon Alexa, creating a cohesive and integrated smart home system.

For the sake of security

The gateway also acts as a security control panel, allowing you to create alarm scenarios. By integrating with sensors and other Zigbee devices, you can create advanced automations that make you feel safer in your home. This way, for example, you'll make it so that when the sensor detects that a stranger has entered the room, ZBBridge-U will beep and send you a notification to your phone!

Compatibility with SONOFF devices

The ZBBridge-U is compatible with a wide range of SONOFF Zigbee devices, allowing you to easily expand your smart home system with new features. Among other things, it is compatible with a variety of switches, smart outlets and sensors. So you can customize your smart home according to your needs and preferences!

Enjoy more comfort

Create complex automations and enjoy comfort in your smart home. By combining the gateway with sensors and other devices, you can plan multiple scenarios for different occasions! Make it so that when the temperature in the room rises to a certain level, the fan will automatically start up, and when someone leaves the room, the lights will spontaneously turn off. The possibilities are almost endless!

Voice control

Do you have busy hands? No problem - the ZBBridge-U gateway is compatible with Alexa, Siri and Google Assistant, allowing you to control your devices with voice commands! With just a few words, for example, you can turn off the lights, run the thermostat or make sure the door is locked.

Included

Zigbee gateway
Network cable (1m)
Quick start guide
USB-C cable (1 m)
