Nillkin CamShield Pro Case for iPhone 16 Pro (gray)

The Nillkin CamShield Pro Case for iPhone 16 Plus is a high-tech solution that combines elegant design with exceptional protection for your device. With a sliding lens cover and carefully crafted details, this case provides not only security, but also comfort and a stylish look.

Sliding lens cover

One of the biggest advantages of the Nillkin CamShield Pro case is the innovative 2019 patented sliding lens cover. This solution is designed to fully protect your iPhone's camera from scratches and dirt. The smooth-functioning mechanism of the cover is the result of five years of intensive research, making it easy to use and fully integrated into the case.

Solid protection for everyday use

Made of high-quality TPU and PC materials, the case provides full protection for your device in all conditions. Equipped with cushioned corners, the phone is shock-resistant, and raised edges around the camera and screen (about 1 mm) further protect against scratches and damage when putting the phone down on hard surfaces.

Minimalist design with class

The classic design of the case, with elegant stripes on the surface, adds a timeless touch. The minimalist style makes the case blend in perfectly with the modern look of the iPhone 16 Plus, while the non-slip surface provides a secure grip. An additional opening for a lanyard is a practical feature that enhances everyday functionality.

Perfect fit and ease of use

Thanks to precise cutouts and a snug fit, the CamShield Pro case provides convenient access to all the device's buttons and ports. Soft edges make it easy to put the case on and take it off without risking damage to the phone. The rounded edges also make the case compatible with most protective glasses available on the market, adding to its practicality.
