Nillkin CamShield Pro Case for iPhone 16 Pro Max (black)

The Nillkin CamShield Pro Case for iPhone 16 Pro Max is the perfect combination of advanced protection and minimalist design. With a patented sliding lens cover for full protection of the phone and finely crafted details, the case provides not only safety, but also an elegant look.

Patented lens cover

In 2019, Nillkin has developed a sliding lens cover to provide maximum protection for your camera from scratches, dust and damage. This unique feature has been carefully designed to work seamlessly with the case for ease of use and durability. The sliding mechanism works effortlessly, allowing you to quickly and conveniently cover the lens when the phone is not in use.

Advanced protection for your device

The case is made from a combination of TPU and PC materials that provide solid protection for your iPhone 16 Pro Max. Additional air cushions in the corners of the case protect against bumps and shocks, while raised edges around the camera and screen (about 1 mm) protect against scratches during everyday use. This keeps the phone safe, even in the most demanding situations.

Timeless design and minimalist elegance

The CamShield Pro case is distinguished by elegant, classic stripes that give it a timeless feel. Its minimalist style blends perfectly with the modern look of the iPhone, while the thoughtfully textured surface provides a secure and stable grip. In addition, the case features a lanyard hole for added everyday functionality.

Precise fit and comfortable use

Nillkin CamShield Pro offers a perfect fit for your iPhone 16 Pro Max. Precise cutouts allow easy access to all ports and buttons, and the rounded edges are compatible with most protective glasses. The soft edges of the case allow it to be put on and taken off quickly, without risking damage to your phone.
