Ref: 6902048261877

Nillkin SnapBranch Modular mount for tablet and watch (gray)

Nillkin SnapBranch Modular Tablet and Watch Holder (Gray)

The Nillkin SnapBranch Modular in Multitask is an innovative holder designed for convenient tablet and smartwatch use, providing the perfect support for those who need to have multiple devices at their fingertips. With its gray, modern design, the holder will blend perfectly into any office or home space, improving work organization. Its clever design keeps all your devices at your fingertips, making it easy to switch seamlessly between screens.

360° swivel base

The SnapBranch Multitask mount is distinguished by its swivel base, which allows a full 360-degree rotation. This functionality is extremely useful in everyday use, allowing you to easily share your tablet or phone screen with others. With just one movement, you can easily share screen content with co-workers or clients without having to move the device.

Modular design

The mount is equipped with magnetic modules that allow fast and secure attachment of devices. With additional side arms, the user can use a tablet and a smartwatch at the same time, enhancing the user's experience and allowing better task management. The modular design provides full flexibility, allowing the holder to be customized to fit the user's individual needs.

Space organization and stylish design

Using the SnapBranch Multitask holder is also a way to keep your desk organized. Instead of having devices scattered about, everything has its own place, which allows for better organization of work and improves the aesthetics of the space. Not only does the holder make daily use of devices easier, it is also a stylish addition that adds a modern touch to the desk.
