

Filter BlueMorphic PolarPro LiteChaser Pro for iPhone 13

Filter BlueMorphic PolarPro LiteChaser Pro for iPhone 13

Ref: 817465027226

BlueMorphic PolarPro LiteChaser Pro Filter for iPhone 13 Pro / Pro Max

Create even more creative content. The BlueMorphic filter by PolarPro fits the 0.5x, 1x and 3x cameras of the iPhone 13 Pro and Pro Max. With it, you can get beautiful blue flashes in your images without using an anamorphic lens - ideal if you want to avoid decompressing your footage in post-production. You can also rotate it freely. The accessory is compatible with FILmiC Pro and Moment Pro Camera applications. It was also designed to fit future smartphone models. The kit also includes a protective case and Defender Mini cover. Note: to use the filter, the LiteChaser Pro case for iPhone 13 Pro or Pro Max is required.
