

Smart Led Light Strip Sonoff L2 Lite 5m

Ref: 6920075776713

Smart Led Light Strip Sonoff L2 Lite 5m

Smart Led Light Strip Sonoff L2 Lite 5m

Create a unique atmosphere. The 5m long Sonoff L2 Lite LED Strip is very easy to install and will perfectly decorate any room. Using the eWeLink application, you can choose from 16 million light colors, use the available scenes and even create your own. You can also easily set a schedule for your device. You can also control the strip with your voice - the product is compatible with Google Assistant and Amazon Alexa smart assistants.

Easy to install and use

Mounting the tape will not cause you any problem. L2 Lite is extremely flexible and self-adhesive - just stick it on the desired location. Its length is 5m, but if necessary you can cut it. You can conveniently operate the tape from a distance using the eWeLink application and the included remote control. You also do not have to worry about losing your Internet connection - the device supports Bluetooth 5.0, so you can easily control it remotely in almost any situation.

Adjust lighting to your expectations

Dedicated app allows you to conveniently control the lighting. With it you can set the desired brightness and color temperature of the light, as well as choose from 16 million RGB colors. So you can easily create a fantastic atmosphere for any occasion. Movie night, or maybe Christmas dinner with the family? You also have the option of synchronizing the tape to music. This is perfect for a party - dance

and watch the light dance with you!

Choose from available scenes

Now you can tailor your lighting to the occasion even better. The app lets you choose from 21 smart scenes that will help you emphasize the character of any situation. For example, Candle mode will be perfect for a romantic dinner. Didn't find the perfect solution for you among the available options? Prepare your own! You can create up to 8 DIY scenes using the app.

Voice control capability

Have busy hands and could use some light? Or maybe you want to turn off the light and you do not feel like getting up from your comfortable bed? No problem - you don't even have to reach for your phone! The L2 Lite LED Strip is compatible with Google Assistant and Amazon Alexa voice assistants. So you can conveniently operate it with the right commands. With just a few words, you can turn on the light, brighten it a bit, choose your favorite color or change the color temperature.

Create work schedules

The app also allows you to create work schedules for the LED strip. You can easily set it to automatically turn on and off at specific times. Such a solution will be useful not only at home, but also, for example, in a store or cafe. Program L2 Lite to work during your business hours and be sure that it will attract the attention of passers-by!
