Smart WiFi Roller Shutter Timer Meross MRS100HK(EU) (HomeKit)
Do you want to make your life easier by having automated control over your daily activities? The Meross MRS100HK roller shutter timer will allow you to remotely control your roller shutters from anywhere in the world. Take advantage of the app, voice assistant compatibility or the panel on the device interface.

Remote control
Do you want to open the blinds from across the room? Or let in some light for your animal companion while in the other part of the country? With the Meross app or Apple Home, you can do it! What's more, the device is compatible with AppleHomeKit, Siri, Amazon Alexa, Google Assistant and SmartThings. And if you happen to be at the panel, you can control the blinds from its LED indicator interface.

Automation - scheduling
You can adapt the operation of the MRS100HK to your routine. Create a schedule to raise and close your roller shutters automatically. Give yourself an effective wake-up call and invite some sunshine into your home to start the day with a smile. You have it at your fingertips!
