

Robot vacuum cleaner Viomi V5 Pro

Robot vacuum cleaner Viomi V5 Pro

Ref: 6923185626794

Robot vacuum cleaner Viomi V5 Pro

Say goodbye to dust and other debris! The Viomi cleaning robot offers 4000 Pa of suction power, leaving your floors spotlessly clean. It also has mopping capability, for even more convenience of use. The main brush is responsible for the high cleaning effect, and the advanced anti-collision system effectively detects and avoids obstacles. In addition, the 5200 mAh battery allows you to clean about 420 sq. ft. and the clever brush design allows you to pick up more dirt.

Ruthless for dirt

Nothing can hide from the Viomi V5 Pro. The device has 4000 Pa of suction power, cracking down on dirt on all kinds of surfaces - from carpets to laminate and tiles. In addition, it increases the suction power when cleaning the carpet. It offers the ability to vacuum, sweep and mop, for a comprehensive cleaning of the floors in your home.

Effective

For an even better cleaning effect, Viomi has equipped the robot with a 181 mm long brush. It can remove up to 80% of the dirt it encounters. In addition, the brush picks up about 82.2% of the dirt along walls and edges.

Nothing will stand in its way

The robot is equipped with lasers, which are responsible for avoiding obstacles. The device detects obstacles within a range of 8 m with a height of more than 3.5 mm and can recognize more than 150 different obstacles. V5 Pro scans a surface at an angle of 180° and cleans spaces at a distance of about 1.5 cm from walls.

App

Turn on the robot with one click of the app, without getting up from the couch. You can control the V5 Pro from within the Mi Home app, for added convenience. The device also works with Amazon Alexa and Google Assistant. All it takes is a simple voice command to start or stop cleaning.

Effective filtration, long working time

The device is equipped with a HEPA filter that blocks up to 95% of dirt, preventing secondary contamination. In addition, the 5200 mAh battery will allow you to clean up to 420 sq ft on a single charge. Moreover, if the battery level gets too low while cleaning, the device will find a charging station and automatically start charging.

Included

robot
charging dock
water tank 2in1
main brush
side brush x2
HEPA filter
mop holder
mop cloth x2
cleaning tool
adapter
user manual
