

Powerbank Romoss PEA40 40000mAh (black)

Powerbank Romoss PEA40 40000mAh (black)

Ref: 6958377509289

Romoss PEA40 Powerbank

The Romoss PEA40 powerbank is distinguished by its huge capacity of 40,000 mAh and practical LED screen. It is compatible with fast charging protocols QC 3.0/2.0, MTK PE and Huawei FCP and ensures full safety of charged devices. Powerbank allows you to charge up to 3 devices at the same time, and wide compatibility allows you to connect smartphones and tablets of the most popular brands. The battery cells used are safe and durable.

Charge 3 devices simultaneously

The powerbank has three outputs - one USB and two USB and USB-C fast charging ports. This allows the Romoss PEA40 to charge up to 3 devices at one time. This solution saves time spent on renewing the energy of the necessary equipment.

Large capacity - multiple charges

With its large capacity, the Romoss powerbank allows you to charge your devices multiple times. The iPhone 8 can be charged almost 14 times! Huawei P10 can be charged about 7.7 times, Galaxy S8 about 8 times, iPad mini 2 about 4 times, iPhone 11 about 8 times and Oppo R11s about 7.7 times.

Fast charging

The Romoss PEA40 powerbank is compatible with most popular fast charging protocols, so it renews the energy of connected devices really fast - the Xiaomi 9 can be charged in just an hour. The powerbank renews its energy just as quickly using PD/QC3.0, and by connecting it to an 18W mains charger, you'll renew its energy in 12 hours. Conveniently charge the powerbank with the Micro USB and USB-C inputs.

Wide compatibility

The powerbank is compatible with smartphones and tablets from brands such as Apple, Samsung, Huawei and Xiaomi, for example. Romoss PEA40 will come in handy at home, because it allows you to charge such things as a desk lamp or a small fan. You can also take the powerbank to the field and use it during your vacations in a tent or on the lake.

Digital LED display

The powerbank is equipped with a digital LED display, which shows the most important information about the operation of the device. Innovative technology allows you to switch between modes and check information on charge level, voltage and amperage.

Safety

The Romoss PEA40 powerbank has a 10-element safety system that protects your charged devices from overcharging, overcurrent, short circuit, electromagnetic field and temperature effects, among others. So you don't have to worry about damaging your smartphone and other devices.
