PGYTECH OneGo Shoulder Bag 6L

Looking for a bag to help you transport your camera and photography accessories? PGYTECH is meeting those needs with the OneGo 6L. Practical solutions allow you to fit many of the tools you need inside, while the adjustable strap design makes it comfortable to carry.

Functionality first

The design of the product is based primarily on functionality and comfort. The solution with a clamshell closure provides quick access to the inside of the bag - without the risk of equipment falling out when opening. What's more, the adjustable strap ensures you can adjust its length - all for your comfort!

Design the interior yourself

The bag's versatility is highlighted by the ability to customize its interior to suit your needs. It comes with 3 dividers, so you can choose the layout of the pockets! In addition, the OneGo 6L also has a compartment for your tablet, filters and batteries, as well as external pockets.

Useful accessories included

This bag comes with everything you need! The 2 practical, adjustable straps ensure comfortable carrying - without causing discomfort, and the 3 dividers allow you to organise your space. In addition, you get 2 magnetic pins which can be used as battery status indicators or 1/4" keys.

Bag

2 x magnetic pin
