Wireless earphones TWS EarFun Air Pro SV, ANC (black)

TWS EarFun Air Pro SV Headphones

Get the headphones that fit you perfectly. EarFun Air Pro SV support QuietSmart 2.0 dynamic ANC noise cancellation and offer several modes to choose from. The 10mm drivers deliver fantastic sound quality and the built-in microphones let you talk freely on the phone. The headphones also boast IPX5 water resistance and a long battery life of up to 6 hours. In addition, the dedicated EarFun Audio app provides convenient access to many interesting features.

ANC noise cancellation

Cut out the noise. Air Pro SV headphones offer QuietSmart 2.0 hybrid dynamic noise-canceling technology that effectively dampens ambient noise by up to 40dB. They also dampen wind gusts. Say goodbye to loud, disruptive noises and focus on the podcast being played or the beauty of your favorite songs! There's also Transparency mode so you can listen to your music without losing touch with your surroundings. Now you can hear everything!

Stunning sound

Do you like high sound quality? Then Air Pro SV is perfect for you! Equipped with 10mm composite drivers, they can deliver clear sound and rich detail. Accentuated bass, crisp treble and perfect harmony - with EarFun you'll rediscover the best of your favourite music genres!

Designed for conversations

Enjoy crystal-clear sound, not only when listening to music, but also when talking on the phone. Each earphone has 3 built-in microphones to reliably capture your voice. Air Pro SV also supports noise cancellation, so you can be sure your callers will hear you clearly. Bus, shopping mall or supermarket? Now you can easily talk on the phone wherever you want!

Long battery life

Listen to music at home, at work, during a workout, or on the move - and don't worry if your headphones run out of power too quickly. Air Pro SV can run for up to 6 hours, and the included carrying case extends that time by about 18 hours. This gives a total of up to 24 hours of playback! Charging the headphones doesn't take long. It only takes about 10 minutes and you can use them for another 2 hours! In addition, the case can be charged using a USB-C cable or wirelessly.

Bluetooth 5.2

Modern Bluetooth 5.2 provides fast, stable signal transmission and lower power consumption. Each headphone connects to the device of your choice independently - so you can use them in any configuration. Do you like to play mobile games? We have something for you too! Air Pro SV offer a special gaming mode that guarantees incredibly low latency of about 80ms. Perfect synchronization of image and sound will let you enjoy even the most dynamic game.

Well thought-out design

Going for a workout? Or are you about to leave the house and see the rain coming? You don't have to give up listening to your favorite tunes! Air Pro SV are IPX5 waterproof, so drops of rain or sweat are no threat to them. The headphones are also extremely lightweight and comfortable. What's more, the charging case that comes with them looks really good. It is made of high-quality aluminum and is very pleasant to the touch.

Touch control

Operating the headphones is extremely easy and convenient - no need to reach for your phone every time. Air Pro SV are equipped with special touch panels that provide quick access to many useful functions. With just the right number of touches, for example, you can pause or resume playback, switch songs, activate the voice assistant, answer or end a call, or even adjust the volume.

Try the EarFun Audio app

Now you can customize the performance of your headphones even better. Just pair Air Pro SV with the app, which is available for free on Google Play and the App Store. With it, you can conveniently check the battery level, select the playback mode and adjust the control settings. Equalizer and Bluetooth Manager are also available. Check out what else is waiting for you!
