Ref: 6970801334311

PGYTECH photography gloves - create stunning shots even in winter

If you are a lover of photography and film, and you want to be able to create stunning footage also in harsh winter conditions, PGYTECH gloves will be an excellent choice for you. They are made of excellent quality, skin-friendly and waterproof materials, so they provide full comfort even on extremely cold days. The ability to detach the fingertips, the non-slip coating and the adjustment straps at the wrists make taking great photos and videos even more comfortable and effective. The product is ideal for use in temperatures from 5°C to -10°C.

Dreamlike warmth and comfort

The use of 3M Thinsulate insulating technology makes the gloves as warm and comfortable as you can dream. They are sewn from durable, skin-friendly and breathable materials. The plush trim further enhances comfort. The gloves also have a windproof membrane and a waterproof HIPORA layer - so you won't be intimidated by even the toughest conditions. Snow, wind, rain - nothing will stand in your way of taking a stunning photo or video.

Detach the fingertips - enjoy the freedom

With PGYTECH you also gain the ability to comfortably operate panels and touch screens. This is made possible by a special coating with which the fingertips are covered. So the product is perfect for almost any situation - no matter what equipment you use, you can operate

it freely, enjoying the warmth and comfort.

Convenient touch operation

With PGYTECH you also gain the ability to comfortably operate panels and touch screens. This is made possible by a special coating that has been applied to the fingertips. So the product is perfect for almost any situation - no matter what equipment you use, you can operate it freely, enjoying the warmth and comfort.

Comfort of use you care about

The gloves are designed to guarantee you maximum comfort. The non-slip coating on their inner side allows you to hold your camera, camera or drone controller comfortably and securely. You no longer have to worry about your equipment falling out of your hand. Adjustable Velcro straps at the wrists allow the product to fit your hands even better. In addition, special hooks allow you to clip the gloves together for easy storage.
