MOFII Candy M Mechanical Keyboard

The MOFII Candy M SK-645 keyboard features an original design and is equipped with 84 keys with Blue switches. It supports N-Key rollover and allows you to lock the Windows key - a great option for gamers. Also noteworthy is the LED backlighting with up to 20 available effects. The keyboard also features an ergonomic design for unparalleled comfort.

Ideal for gamers

Take your gameplay to a new level. The keyboard features 84 keys with blue switches that stand out with a lifespan of up to 50 million clicks and provide reduced response time. It also supports N-Key rollover, so you can press multiple keys simultaneously without fear of conflict. There's also an optional Windows key lock - no more worrying about accidentally pressing it and interrupting gameplay. With MOFII you will break another record!

Original design

Enjoy the comfort of use. The rounded keys of the keyboard easily yield to your fingers and are extremely pleasant to the touch. What's more, the laser-engraved markings not only look great, but are also resistant to wear and fading. The keyboard also impresses with its original design - a fantastic combination of retro style and modern solutions.

Dynamic backlighting

Now you can easily create an atmospheric gaming zone. The keyboard is equipped with dynamic LED backlighting, which gives it a unique character and improves the visibility of the keys in the dark. There are up to 20 modes to choose from - such as gaming modes, which will work well when playing racing or FPS games. There's also a 6-stage brightness adjustment and a 5-stage backlight speed adjustment. Try out all the possibilities and find the perfect setting for you!

Function keys

Time is very important both at work and during gameplay. MOFII brand keyboard will help you save it, making it even easier to operate your computer! The device is equipped with 12 function keys, which, among other things, allow you to conveniently adjust the volume and operate the media player, as well as provide quick access to your e-mail box, search engine or calculator. All you need is a simple key combination!

Even more conveniences

Bet on the highest quality workmanship. The keyboard has been equipped with a sturdy casing and anti-slip pads, thanks to which it does not move on the surface of your desk. You can connect it to your computer with a long, 1.8-meter cable with a gold-plated connector, which guarantees reliable, stable signal transmission and resistance to interference. The product is compatible with various versions of Windows.
