Seago Sonic Toothbrush SG-977

Help your child take proper care of their oral health and hygiene. Designed with the youngest users in mind, the Seago SG-977 toothbrush delivers a vibration frequency of up to 24,000 strokes per minute for a very thorough cleaning. It also offers a 2-minute timer and colorful LED backlighting. It is equipped with soft, enamel-safe bristles, making it ideal for children.

Ideal for your child

Take care of your child's health. The Seago SG-977 toothbrush will allow the youngest users to brush their teeth thoroughly. The device generates vibrations at a frequency of up to 24 000 strokes per minute and is equipped with a 2-minute timer. Every 30 seconds it will remind your kid with a short pause that the brushed area needs to be changed, and after 2 minutes it will automatically stop working. This way you can be sure that your child is brushing their teeth for exactly the right length of time.

Soft-bristled brush head

What else makes the Seago SG-977 toothbrush so ideal for children? The device features a specially designed tip with DuPont soft bristles that are safe for enamel and won't irritate gums. This makes it suitable for the youngest users. The set also includes 2 additional spare tips - remember to change them regularly to ensure your child's hygiene and maximum effectiveness of the toothbrush.

Well thought-out design

The toothbrush attracts attention with its charming design, which will certainly appeal to the youngest users. Thanks to its ergonomic design it is comfortable to use and fits little hands perfectly. It is also distinguished by colourful LED backlighting. The device was made of ABS plastic, which is safe for health and free from harmful, chemical substances. It is IPX7 waterproof, so you can freely use it in the bath or shower.

Long operating time

The device only needs one AAA battery (not included), which you can easily buy in many stores. You don't have to worry about its frequent replacement - the working time of the device is surprisingly long. A single battery will last for up to 120 days, assuming your child uses it 2 times a day for 2 minutes at a time. Don't worry that the device will refuse to work when you least expect it!
