Water Flosser Seago SG-8001 (black)

Ref: 6938320768017

Seago SG-8001 Dental Water Flosser

Now you can take even better care of your oral hygiene. The Seago SG-8001 water flosser works at a frequency of up to 1800 strokes per minute and effectively cleans even those areas that a regular toothbrush cannot reach. Its efficiency is up to 99%! You can choose from 3 cleaning modes and it will last you up to 30 days on a single charge. The kit also includes 5 interchangeable irrigator nozzles.

Highly efficient

With this irrigator you can thoroughly clean even those hard-to-reach areas of your mouth that a normal toothbrush cannot reach, such as the spaces between your teeth. With a frequency of up to 1800 strokes per minute, the SG-8001 eliminates dirt and food debris with an efficiency of up to 99%. With Seago you will take good care of your oral hygiene and delight everyone with a beautiful smile!

Replacement nozzles included

The set includes 5 interchangeable nozzles, so you can adjust the water flosser to your needs. 2 standard nozzles are perfect for everyday use - they allow you to effectively remove food residues. The periodontal nozzle is perfect for people who struggle with gum disease. The orthodontic nozzle is suitable for braces and denture wearers. You can also use the special tip for cleaning your tongue.

3 cleaning modes

The SG-8001 water flosser also offers 3 cleaning modes to choose from. It is perfect for everyday use and for cleaning your teeth and dentures. Daily is perfect for everyday use - it gets rid of dirt and food debris. High offers an even more thorough cleaning - it can handle even the most stubborn dirt. Pulse provides a gentle gum massage. What is more, the device remembers the last used mode.

Long working time

Don't worry about having to recharge your water flosser so often. The SG-8001 is equipped with a powerful lithium-ion battery that provides an impressively long operating time. A fully charged device can serve you for up to 30 days, assuming you use it every day for about 2 minutes (in Daily mode). Its convenient charging is enabled by the included cable.

Even more convenience

The device is very easy to use and provides comfort. It is relatively lightweight and fits well in your hand. It is equipped with a capacious water tank which is easy to fill. The water tank is also extremely leak-proof, so you have no worries about leaks. What's more, the water flosser automatically switches off after 2 minutes of operation. So you can be sure to use it for exactly the right length of time.
