Deko Tools Welding Helmet MZ239

Do you DIY often? Equip yourself with an EN379 and ANSI Z87.1 safety compliant welding visor to protect your eyesight from radiation and sparks. The product is suitable for intermediate welding work using MMA, MIG, MAG, CO2, TIG, as well as plasma cutting and arc welding. The Deko Tools MZ239 has a high-quality DX-300S lens and an optical class of 1/2/1/2, moreover, it offers adjustable shade level and delay function.

Safety first

The Deko Tools MZ239 welding visor uses a number of solutions to ensure maximum safety during welding and protect the user's eyesight. It has an automatic darkening filter, offers an adjustable darkening range from 9 to 13 DIN and a delay function. It is equipped with 2 arc sensors and complies with EN379 and ANSI Z87.1 standards.

Convenience during operation

The viewing area of this model is as large as 90 x 35 mm - so the Deko Tools MZ239 visor provides good visibility, in addition to facilitating color recognition. The relatively lightweight design and adjustable headpiece mean that the product will provide you with high comfort even during many hours of welding.
