Ref: 6939119024000

Mechanical Gaming Keyboard Havit KB871L RGB (pink)

### Havit KB871L RGB Mechanical Keyboard

The Havit KB871L mechanical keyboard will make your computer work easier, and it will also prove to be an ideal choice for gamers. It is equipped with 104 keys and supports anti-ghosting. It also has special multimedia buttons that provide you with quick access to many useful functions. It guarantees smooth operation and is extremely durable. It is also distinguished by backlighting, the style of which you can adjust to your needs.

### Perfect for gamers

The KB871L keyboard has 104 keys, which guarantee rapid response and smooth action. That makes it perfect for typing as well as for dynamic gaming. The key life is up to 50 million key presses. The keyboard also supports anti-ghosting, so you can press several keys at once without fear of conflict. It also lets you lock the Windows key.

### Multimedia keys

Now you can make PC work even easier. The KB871L keyboard has been equipped with practical multimedia keys, so that you can, for example, operate your media player, adjust the volume and access your browser comfortably. You will save time, which is important both at work and during dynamic games.

## Gaming design

Thanks to its ergonomic design the keyboard does not strain your wrists and provides comfort of use. At the same time, it looks really fantastic - it can be a real decoration of your desk. Colorful backlighting gives it an original, gaming character. You can also change its style and brightness to better suit your preferences.
