Projector BYINTEK K20 Smart LCD 4K Android OS

Ref: 798394974914

BYINTEK K20 Smart projector

The BYINTEK K20 Smart projector features excellent image quality and can display in up to 4K. It is equipped with a 5W speaker, also offers a trapezoidal correction function and provides a brightness of 500 ANSI lumens. Compatible with Android 6.0, it allows you to display games on the big screen and use many popular apps. It's also lightweight and handy.

Feel like you're in a movie theater

The BYINTEK K20 Smart projector uses LCD display technology and provides high image quality. The device's native resolution is Full HD 1920 x 1080 p, but with the use of a cable the projector can display in up to 4K. The 15000:1 contrast ratio is also a plus, as well as a maximum projection area of 300'.

Enjoy your favorite applications

The BYINTEK K20 Smart projector is compatible with Android 6.0, so you can project your favorite game on the big screen for the ultimate entertainment experience. What's more, you can use the projector to watch movies from Netflix or YouTube and use many other popular apps.

Thoughtful design

The projector allows vertical, horizontal and corner keystone correction, so you'll get rid of problems caused by poor projector positioning. You can also use the electronic zoom, and the included remote control will make it easy to operate the device. The 5W speaker will provide high quality audio.

No worries about compatibility

The K20 Smart is equipped with a number of ports, so you can easily connect it to other devices. At your disposal are two HDMI, AV, Mini Jack 3.5 mm, SD, VGA and two USB 2.0 ports, which will allow you to connect to, among others, a PS4 console, U drive, laptop, DVD, computer or speakers.
