

Multifunctional Stand iPega PG-P5009 for PS5 and accessories

Ref: 303276759499

Multifunctional Stand iPega PG-P5009 for PS5 and accessories

iPega PG-P5009 Multifunctional PS5 Console Stand

Use the iPega cradle to quickly and conveniently charge 2 PS5 controllers at the same time. It also doubles as a multi-function stand that lets you store your PlayStation 5 and up to 14 game discs. In addition, you can hang headphones or VR glasses on it, thanks to the detachable holder.

Charge 2 controllers at once

The cradle lets you charge 2 controllers at the same time. The 5V voltage ensures stable charging, so you'll be ready to use your gamepad again after 2.5-3 hours. In addition, a special indicator in red colour indicates the charging process, and in white colour - a fully charged battery.

Multifunctional

The PG-P5009 will not only serve as a charger for controllers, but also as a stand for PS5 and games - it can hold up to 14 discs. In addition, it is equipped with a bracket on which you can hang headphones or VR glasses. You can detach it at any time if you're not using it at the moment. Thanks to this, you can have your equipment and accessories in one place, which is not only convenient but also allows you to keep things in order.
