iPega PG-P4023C wireless controller / GamePad touchpad PS4

Immerse yourself in the world of gaming with the PG-4023C! The iPega controller features a 6-axis gyroscope for smooth operation, and 2 vibration motors for added immersion. You can also customize it with programmable buttons and a built-in touchpad for even more comfort. Check out what else can surprise you!

For more immersion

Feel like the hero of your favourite title! The controller is equipped with 2 motors, which react to events during gameplay with gentle vibrations, thus increasing immersion. In addition, the 6-axis gyroscope is responsible for more accurate detection of directions and ensures precision. This allows you to dodge bullets and negotiate corners with ease.

Built-in touchpad

For even greater ease of use, the PG-4023C features a touchpad, which is great for shooting games. As a result, you can enjoy even greater precision and fluidity during gameplay.

Customize its operation to suit your needs

The PG-4023C doesn't stop there. The GamePad offers programmable L and R buttons, allowing you to personalize its operation. One

click is all it takes to activate your favorite function or perform a complex combination of moves.

More convenience

The controller features colorful LED backlighting, giving the PG-4023C a gaming touch. The battery indicator lets you know how full it is, and the 3.5mm port lets you connect headphones to the gamepad. In addition, the product has a built-in speaker.
