Wireless Mechanical Keyboard Dareu EK810G (black)

Dareu EK810G Wireless Mechanical Keyboard

If you are looking for a versatile keyboard for home or work, the Dareu EK810G will be an excellent choice. It is equipped with 104 keys and stands out for its wide compatibility. The 2000 mAh battery ensures long battery life and the Dareu mechanical switches guarantee smooth, reliable operation. You can connect the keyboard either via cable or wirelessly, in the 2.4G band.

Ideal for everyone

The Dareu EK810G keyboard is perfect not only for normal Internet use, but also for work or gaming, for example. It is equipped with 104 keys with Dareu mechanical switches, which are characterized by high durability and smooth operation. It also supports N-Key rollover, so you can press multiple keys at the same time without fear of conflict.

Even more facilities

No matter what equipment you use every day - the Dareu will make your job easier! EK810G is Windows compatible, so you can easily connect it to your computer. It's also backlit, so you can use it comfortably in the dark. You can also adjust the brightness and backlighting effects with the right key combinations.

2 connection possibilities - long working time

There are 2 options available to connect the keyboard to your computer. If you want, use a USB to USB-C cable. Or you can connect it wirelessly - in the 2.4G band, which will provide a fast and stable transmission. Don't worry about signal problems! What's more, the 2000 mAh battery ensures a long battery life - up to 100 days with the backlight off, or up to 8 days if the backlight is on.

Thoughtful design

Get yourself a keyboard that will serve you well for a long time. EK810G keys are made of high-quality ABS plastic, making them extremely resistant to wear and tear. The supplied puller makes it easy to clean or replace them. The device is also equipped with 12 function keys, so you can comfortably operate the media player or adjust the volume.
