

Camera Akaso Brave 7 LE

Camera Akaso Brave 7 LE

Ref: 810035151796

Akaso Brave 7 LE sports camera

Need a sports camera that can help you get high-quality, dynamic shots? The Akaso Brave 7 LE can capture video at 4K/30FPS and offers a range of functional modes. It features IPX7 water resistance and the use of a 6-axis gyroscope.

High quality

Planning a trip and want to keep the memories not only in your mind? The Akaso Brave 7 LE camera captures video in 4K/30FPS quality and takes 20MP photos. This will give you crystal clear, crisp images that will let you revisit the best moments not only in your imagination!

2 color displays

The device uses 2 color displays - on the front and on the back of the camera. This allows you to constantly control the shots you get, so you'll capture everything exactly as you plan!

Many useful modes

With the Brave 7 LE you'll get plenty of opportunities to create the shots of your dreams. Create unique timelapses or breathtaking slow motion recordings. What's more, the device uses a 6-axis gyroscope, which, combined with EIS technology, ensures high image stability -

even during highly dynamic activities.

Thoughtful design

The camera fits the IPX7 waterproof rating, which means it is not afraid of any splashing. What's more, with the use of a waterproof casing, you can take it with you on a diving session - to a depth of up to 40m!

Convenience and functionality

The included remote control with a wrist band is responsible for highly comfortable operation of the device. This solution allows you to instantly manage the operation of the camera - without the need for a touchscreen interface. Bet on the combination of real convenience with a practical approach - no compromises!
