Multifunctional cleaning set 3in1 Deerma QJ100

Ref: 6955578037801

Deerma QJ100 multifunctional cleaning set 3in1

Experience how simple cleaning can be. The 3-in-1 Deerma QJ100 set includes a broom with dustpan, a special window cleaner and a mop that eliminates the need for manual squeezing thanks to its folding design. Now you can easily take care of tidiness around the house! The products are made of high-quality materials, and thanks to the thoughtful design, their storage will not cause you any problems.

Efficient floor sweeping

Make sweeping your floors easier. The included broom is equipped with 3 layers of high-quality bristles, so it can perfectly deal with debris, while not damaging the cleaned surface. With the QJ100 you won't miss even the smallest crumb! What's more, a specially designed folding dustpan with a built-in comb makes it easy to remove debris from the broom.

Practical mop

The QJ100 also improves floor cleaning. The included mop allows you to thoroughly clean various types of surfaces - from tiles to panels. With its help you can easily remove even the most stubborn stains. You also don't have to squeeze it by hand or get your hands dirty. Just pull the handle and the mop will fold itself and drain the excess water.

Make cleaning your windows easier

Deerma proves that window cleaning can also become simpler. In the set you will find a practical 2-sided washer that will make this task much easier. One side will allow you to clean the glass thoroughly, while with the other you can dry it right away. With the QJ100 you also don't have to worry about streaks and stains. Soon all the windows in your home will be sparkling clean!

Comfort of use

Cleaning doesn't have to be an unpleasant chore at all. The tools included in the set are distinguished by their ergonomic shape and provide comfort of use. The dustpan with a long handle means that sweeping does not require bending down, so you do not have to strain your back. In addition, all elements of the set are made of durable materials such as PP and ABS.

Hassle-free storage

Storing the Deerma QJ100 set will not cause you any problems. The dustpan is distinguished by its foldable design, and its handle has a built-in magnet that allows you to conveniently attach the broom. This way you can store them together. Storage of the included products is also facilitated by a practical wall bracket. In addition, the broom and dustpan have special handles that allow you to hang them on a hook, for example.
