

DIN Rail mounting bracket Sonoff DR

DIN Rail mounting bracket Sonoff DR

Ref: 6920075775860

Expanded Functionality

As you may know, most Sonoff products do not have the ability to be mounted on a DIN rail, which makes it difficult to place them in a distribution box. Now, with the Sonoff DR bracket, this is possible.

Construction

The bracket is made of fire-resistant ABS V0 material. It has a blue clip that allows for easy mounting and dismounting from the DIN rail. The package includes 4 M3 screws for securing the relay to the bracket.

Compatibility

The bracket is designed for Sonoff Basic, RF, Pow/Pow R2, TH10, TH16, Dual, G1 relays.

Model

DR

Mounting

DIN rail

Weight

35 g

Material

Fire-resistant ABS V0

Compatibility with Sonoff models

Basic, RF, Pow/Pow R2, TH10, TH16, Dual, G1
