Smart star projector Blitzwolf BW-PLT1, Wi-Fi

BlitzWolf BW-PLT1 smart star projector
Ensure a unique atmosphere in the room of your choice. The BlitzWolf BW-PLT1 Smart Star Projector displays not only stars, but also colorful nebulae for amazing visual effects. You can control it with the app, which also allows you to adjust various light parameters such as brightness or color. There are also 4 modes, DIY scenes and a timer function. What's more, the product is compatible with Google Assistant and Amazon Alexa voice assistants.

A starry sky in your home
Create a unique atmosphere in your home. The star projector by BlitzWolf allows you to display thousands of rotating stars, stars with colorful nebulae or nebulae alone on your wall or ceiling. You can also set it at 4 different angles for even more interesting visual effects. Choose the best setting for you and enjoy the amazing atmosphere in the room of your choice!

Lots of possibilities with the app
You can conveniently control the projector with the BlitzWolf or Tuya app. Conveniently set the brightness and rotation speed, change the colors of the nebula and adjust its contrast. The possibilities are almost endless! You can also choose from 4 available modes or create DIY scenes to further customize the light to fit the occasion. This makes the projector also great for a party or romantic dinner!

Voice control
Want to turn on the projector or adjust the brightness, but don't have your smartphone handy? You don't have to move from your seat anymore! BW-PLT1 is compatible with Amazon Alexa and Google Assistant smart assistants. So you can control it with voice commands. Now all you need is a few well-chosen words to enjoy the beautiful starry sky in your own room!
