

Facial beauty roller with hot and EMS micro current ANLAN 01

Ref: 6953156301207

Facial beauty roller with hot and EMS micro current ANLAN 01

Face roller with EMS and warm compress ANLAN 01-AAMY01-02A

Enjoy beautiful, smooth and cared-for skin. The facial roller by ANLAN will give you a relaxing massage, it also offers a warm compress (about 40°C) and uses EMS microcurrents. As a result, it reduces the appearance of wrinkles, firms the complexion and reduces swelling. With its help, it is possible to easily model the oval of the face to give it a V-shape. The device is extremely easy to use and works wirelessly. It is also distinguished by its lightweight, handy design, so you can always have it at hand.

Get the face shape you want

Want to give your face a beautiful, youthful look? Roller by ANLAN will help you do it! Among other things, the device will allow you to accelerate fat burning and improve circulation, so you can easily get the desired contour of your chin line. Just about 10 minutes of massage a day is enough to give your face a V-shape and visibly rejuvenate it!

Discover the power of EMS microcurrents

Massage alone is not enough - the ANLAN brand roller also uses EMS microcurrents, which penetrate the deep layers of the skin and stimulate muscles to improve firmness and elasticity. They also support collagen production. All this means you can enjoy a fantastic lifting effect. Your face has never looked better!

Warm compress function

The Roller also allows you to use the warm compress function. The device affects the skin with a temperature of about 40°C, so it gently yet effectively opens the pores. This, combined with EMS microcurrents, makes the skin absorb nutrients much better. This means that with the ANLAN roller you can easily improve the performance of your favorite cosmetics!

Easy to use

Using the roller will not cause you any problem. First, wash your face and then wipe it off. Then apply your favorite toner or serum. Later, proceed to carry out a massage under the eyes, on both sides of the nose, on the forehead, on the cheeks or in the neck area. You may see results after just about 40 days of using the roller!

Lightweight, portable, cordless

Going on vacation? Don't give up on optimal facial care while you're away! The roller is extremely light and handy, and thanks to its compact design, it won't take up much space in your bag or suitcase. What's more, the device works wirelessly - you don't have to be limited by too-short cables. Its working time reaches 90 minutes on a single charge.
