

## Smart plug WiFi Gosund EP8 Tuya

Smart plug WiFi Gosund EP8 Tuya

Ref: 6972391289477

### Gosund EP8 Wi-Fi smart plug

The Gosund EP8 plug will allow you to turn ordinary appliances in your home into smart devices. It allows you to remotely control connected equipment - just use the Gosund, Smart Life or TUYA app. It is also compatible with Amazon Alexa and Google Assistant voice assistants. It also allows you to create work schedules, set timers and control selected devices in groups. Make managing your smart home easier with EP8!

### Plenty of possibilities with the app

Now everything you need is at your fingertips. The EP8 plug is compatible with apps such as Gosund, TUYA and Smart Life. This means you can conveniently control the equipment connected to it with your smartphone! With just a few clicks, for example, you can turn the device on or off, set an operating schedule or adjust settings.

### Voice control

Now you can make it even easier to control your chosen equipment. The EP8 plug is compatible with Google Assistant and Amazon Alexa smart assistants, so you can operate it with simple voice commands. Are you cooking and your hands are busy, and could use some extra lighting? Or maybe you're going to bed and don't want to get out of bed to turn off the lights? With the Gosund EP8, a few words are all it takes to turn a certain device on or off, for example!

### Device sharing

Do you want other members of your family to also be able to control devices connected to EP8 outlets remotely? It's possible! Once you add the selected equipment to the app, you can share it with other users. This way your loved ones can conveniently operate the coffee maker or turn off the light if they forget to do so before leaving the house.

### Schedules and timers

Create for yourself a smart home where you can live well. EP8 outlets allow you to set operating schedules for connected devices. So, for example, you can make the coffee maker automatically prepare aromatic coffee at 7:00 a.m. when you get out of bed, and turn off the lights at 11:00 p.m. when you go to sleep. There's also a timer function so that the selected appliance will automatically turn itself off after a set time.

### Improved design

Bet on the highest quality and choose equipment that will serve you well for a long time. The Gosund EP8 socket is made of fireproof PC V0 plastic - it is extremely durable and robust. It uses a Wi-Fi connection, and its configuration is very simple - it will not cause you much trouble. What's more, the product can withstand a maximum load of 16A, which gives you plenty of application possibilities.
