

Mini Silicone Electric Sonic Facial Brush with magnetic char

Ref: 6953156301191

Mini Silicone Electric Sonic Facial Brush with magnetic char

ANLAN 01-AJMY21-04A silicone sonic face brush

A new version of the well-known and well-liked ANLAN ALJMY04-04 sonic face brush. The device offers sonic vibrations with a frequency of up to 10,000rpm, thus guaranteeing thorough skin cleansing and a pleasant, relaxing massage. It is equipped with different types of bristles, which means it will work perfectly on the entire face. It is also distinguished by its IPX7 water resistance and long working time. The brush also has a smart timer and allows 3-stage adjustment of vibration speed.

Effective cleansing

With the ANLAN sonic brush, you can clean your face much more effectively than with ordinary methods. It will also help you fight acne, blackheads and enlarged pores. The device also has 3 types of cleaning surface - fine bristles, rough bristles and a massage area. This means it's ideal for oily and normal skin, and will also work well on the entire face - both T-zone and U-zone.

Perfect for skin care

The device uses 10,000rpm sonic vibration to penetrate the deeper layers of the skin and effectively eliminate dirt, makeup residue and dead skin. You can also massage your face with the back of the brush - use this option when applying a mask, for example, so that your complexion can better absorb nutrients.

Smart timer

Wondering how long you should cleanse your face with the brush? Don't need to - the device is equipped with a smart timer that will see to your skin care time for you! Every 20 seconds it will remind you to change the cleaned area, and after 2 minutes it will automatically finish the job.

Tailored to your needs

You can use the brush in the bathroom or even while bathing without any worries. The device is distinguished by its IPX7 water resistance - even if it falls into water, it will not be damaged. The product is also extremely lightweight and portable. You can easily take it with you on vacation - it won't take up much space in your suitcase.

Long working time

The sonic facial brush is equipped with a long-lasting rechargeable battery, thanks to which it can provide a surprisingly long working time, which reaches 260 minutes on a single charge. It also includes a magnetic cable, with which you can quickly and conveniently restore the device's power - it will only take about 2 hours.

3-stage vibration control

Adjust the work of the brush to your needs and skin type. The device allows you to adjust the vibration speed in 3 levels. Level 1 will be suitable for sensitive skin. It will also help improve the absorption of nutrients. Levels 2 and 3 will provide deep cleansing and will work well for oily or combination skin. What's more, the use of skin-friendly silicone means you don't have to worry about irritation even at high vibration levels.
