

Smart Laser Measure HOTO H-D50, bluetooth, 50m

Smart Laser Measure HOTO H-D50, bluetooth, 50m

Ref: 6974370800802

HOTO H-D50 laser rangefinder, bluetooth, 50m

With the HOTO rangefinder you can easily measure the length, height of the room, etc. Its accuracy is ± 2 mm and range is 50m. It offers 5 operating modes and HD LED display, providing the most important information about the operation of the device. In addition, it has a rechargeable battery with a capacity of 850 mAh, and the app will allow you to gain access to useful functions. The HOTO brand is part of the Xiaomi ecosystem.

Precise measurements

The HOTO rangefinder will allow you to accurately measure height, length, width and surface angles. It offers measurements with an accuracy of ± 2 mm, so you don't have to worry about measurement errors. What's more, it has a range of 50 meters, and thanks to its 5 operating modes, you'll be able to customize its operation to suit your needs.

Remote control

The rangefinder supports Bluetooth, which allows for simple operation via the HOTO app. This allows you to record the results of measurements in real time and take photos of objects, then write out their dimensions. In addition, from its level you can create room designs and enter dimensions.

Simple and convenient operation

Operating the rangefinder will not cause you any problems. The device has one large button, with which you will gain access to settings and functions. What's more, a short vibration will inform you of a completed measurement.

Durable battery

Another advantage of the product is its long operating time. The rangefinder has an 850 mAh battery, which translates into up to 1,500 measurements on a single charge. On the other hand, there is a built-in USB-C port, which will facilitate charging. After about 100 minutes, the H-D50 will be ready to work again.

User-friendly

The HOTO rangefinder is equipped with a 1.8" LED display, which will make it easier to read the measurement results. What's more, being made of ABS and PC materials translates into the product's durability. In addition, its lightweight (90 g) and compact design means that you can successfully store it in your backpack. In addition, a practical clip allows you to hang the device on a string and ensures convenient storage and transportation.

Manufacturer

HOTO

Name

HOTO H-D50 laser rangefinder

Model

H-D50

Dimensions

99 x 44 x 23 mm

Weight

Approximately 90 g

Battery type

Lithium

Battery voltage

3,7 V

Battery capacity

850 mAh

Display

1.8" (LED)

Bluetooth range

Up to 8m

Charging parameters

5 V - 1 A

Charging time

Approx. 100 min

Automatic shutdown

After 180 s

Automatic laser shutdown

After 180 s

Storage temperature

-20°C - 60°C

Storage ambient humidity

20% - 80% RH

Range

0,05-50 m
Accuracy
±2 mm
Minimum measurement unit
0,001 m
Unit of measurement
m / ft
Laser type
Wavelength 630-680 nm
Operating power
1 W (max)
Working temperature
-10°C - 50°C
