

Camping Flashlight HOTO QWLYD001, 180lm, USB-C

Ref: 6974370800871

Camping Flashlight HOTO QWLYD001, 180lm, USB-C

HOTO QWLYD001 camping flashlight, 180lm, USB-C

The HOTO flashlight is perfect for camping, garden parties or simply as a flashlight. It generates a brightness of 180 lm and is splash-proof (IPX6). What's more, the 3100 mAh battery provides up to 50 h of operation on a single charge. You can also adjust its brightness and choose between 3 operating modes. You'll also find a detachable lampshade included. The HOTO brand is part of the Xiaomi ecosystem.

Lightweight and compact

The flashlight is distinguished by its lightweight design - it weighs just 135 g and is 12.8 cm high. As a result, its storage and transportation will not cause you any problems. You can always have it with you. On the other hand, a convenient button is responsible for simple operation, with which you can turn on/off QWLYD001, set brightness and select the mode of operation.

Various usage scenarios

The QWLYD001 will work well in a variety of situations. You can take it on a trip to the mountains, camping or take it to the garden. It comes with a magnetic shade, which you can easily mount on the flashlight or fold up - if you temporarily don't need it. In addition, the flashlight is equipped with a special clip, with which you can hang it in the desired place.

3 working modes

The flashlight offers 3 operating modes to choose from, so it will work well in different situations. Camping mode provides brightness in the range of 180~18 lm and warm light color, with a runtime of up to 8~40 hours. Flashlight mode uses cold light with a brightness of 120~12 lm and allows the flashlight to work from 10 to 40 h. On the other hand, in Ambient mode, the device generates a warm light color with a brightness of 50~5 lm and allows 20 to 50 h of operation on a single charge.

Thoughtful design

The HOTO device is made of transparent and durable PC plastic, which, combined with the aluminum housing, gives the QWLYD001 a minimalist and stylish design. In addition, it is IPX6 splash and dust resistant, so you can use it regardless of the conditions.
