

Smart LED Wi-Fi Bulb Sonoff B05-BL-A60 RGB

Smart LED Wi-Fi Bulb Sonoff B05-BL-A60 RGB

Ref: 6920075776676

Sonoff LED smart bulb B02-BL-A60

Create a unique atmosphere in the room of your choice with the Sonoff LED smart bulb. Freely change the light color between warm and cold to adjust the lighting to your requirements. The B02-BL-A60 allows you to operate using an app, voice assistant or created schedules.

Lighting power

The bulb stands out for its 9W power and is capable of generating up to 806 lumens of light. What's more, it is Energy Star (CE/RoHS) certified, featuring lower energy consumption and extended life. Bet on the combination of efficiency and economy!

Instant change of the atmosphere

The B02-BL-A60 offers adjustable brightness and warmth. So you can adjust the climate in the room as you wish. Choose one of the default modes or adjust settings manually - your choice!

Intelligent control

You will take control of the bulb using a special app. You can also use the voice assistant - Amazon Alexa or Hey Google. Another option is to create a schedule, so that the lighting in your home will handle itself!
