

UV Flashlight Superfire Z01, 365NM, USB

UV Flashlight Superfire Z01, 365NM, USB

Ref: 6974760350153

Superfire Z01 UV Flashlight

The handy Superfire Z01 UV flashlight allows you to verify the authenticity of documents and detect stains that are invisible on a daily basis. The flashlight uses a 365 nm laser wavelength, and the 1400 mAh battery provides 3 h of operation. The IP44 water resistance and robust design are also a plus.

Multiple uses

The Superfire Z01 UV flashlight will work well in many different situations. It can be used at home to detect, among other things, invisible to the eye animal tracks, in addition, it allows to verify the authenticity of documents, and also helps when searching for organic substances in the dark (such as amber).

Reliable

The flashlight is equipped with a high-quality UV-365 LED and emits a wavelength of 365 nm. It is distinguished by its wide range of illumination and high detection efficiency. Another advantage is the 1400 mAh lithium-ion battery, which provides about 3 h of operation on a single charge.

Lightweight, handy, durable

The Superfire Z01 is made of aluminum alloy, is IP44 waterproof and isn't intimidated by a drop from a height of 1 meter. So you can use it outdoors without worrying about sudden rain or mechanical damage from a fall.

Included

Superfire Z01 UV flashlight x1

Rechargeable battery x1

Charger x1

Lanyard x1

User manual x1

Manufacturer

Superfire

Model

Z01

Range

8 m

Diode type

UV-365

UV wavelength

365 nm

Working time

Approx. 3 h

Charging time

2,5 h

Power supply

18650 lithium-ion rechargeable battery

Battery capacity

1400 mAh

Voltage

3,7 V

Power

3 W

Water resistance

IP44

Drop resistance

1 m

Dimensions

24 x 24 x 124 mm

Weight

56 g
