

## Flashlight Superfire GF03, 800lm, USB

Flashlight Superfire GF03, 800lm, USB

Ref: 6956362912632

### Superfire GF03 flashlight

The Superfire GF03 flashlight has two lights (front and side), generates a stable light of 300 lumens and a range of 300 meters, plus it can shine white, yellow, purple and blue light. The front light comes in High and Low modes, while the side light offers White, Red strobe and Red SOS modes. The flashlight is distinguished by its long runtime, has a motion sensor (side light) and can adjust the light output.

### Multiple uses

The main light of the Superfire GF03 flashlight is distinguished by a brightness of 300 lm and can come in 4 different colors. The white light will be good for everyday use, while the yellow light will allow you to illuminate close objects. Purple will be suitable for night fishing and will allow you to attract fish, while blue allows you to illuminate the surface of the water. The light in each color comes in Low and High modes.

### Side light and motion sensor

The Superfire GF03 flashlight also has a side light that uses white and red light and offers White, Red strobe and Red SOS modes. What's more, the flashlight is equipped with a motion sensor, allowing a simple hand gesture to turn the side light on or off. The sensor provides effective operation at a distance of 10 cm.

#### Tailored to your needs

Another advantage of the Superfire GF03 flashlight is the ability to adjust the light output. All you have to do is turn the regulator located on the top of the product, and the light beam will become more focused or diffused. Also noteworthy is the practical handle, thanks to which you can comfortably carry the flashlight.

#### High comfort of use

Superfire GF03 was designed to combine maximum functionality with convenient operation. All you have to do is press the right button to switch between the front and side light, change the color of the front light or activate the motion sensor. The practical display will give you quick access to information about the battery level.

#### Reliable

The flashlight has a powerful power source that provides 12 h of operation on a single charge. With a capacity of 8800 mAh, you can use the product like a powerbank and renew your smartphone's energy with its help. Charging the GF03 will take about 5.5 hours. The IP34 water resistance and resistance to a drop from a height of 1 meter make you can use it outdoors without worry.
