

Headlamp Superfire HL23, 220lm, USB-C

Headlamp Superfire HL23, 220lm, USB-C

Ref: 6974760350788

Superfire HL23 headlamp flashlight

Do you like evening cycling? Or do you often fish after dark? Equip yourself with the sturdy Superfire HL23 headlamp, which provides a stable light source and high comfort. It offers up to 9 lighting modes, has a motion sensor and an adjustable design. It provides 180 minutes of operation and convenient power renewal, plus it is IP44 waterproof. It is also not afraid of a fall from a height of 1m.

It will effectively light the way

The Superfire HL23 headlamp flashlight is equipped with a high-quality LED, thanks to which it provides even, stable illumination with a brightness of 220 lm and a range of 120 m. It also has an additional lamp, which increases the product's applicability. Thus, the HL23 will prove useful during car repair, evening jogging or under a tent.

9 operating modes

The flashlight offers up to 9 operating modes, so you can use it in many different situations. At your disposal are Strong, Medium and Low modes, as well as Strobe, during which the bright light flashes at a high frequency. You can also use the Auxiliary and Auxiliary+Main, Red and Red Strobe modes, as well as SOS, which will allow you to call for help in an emergency.

Tailored to the user's needs

Thanks to its adjustable design, the flashlight will meet your individual needs. You can adjust its position within 45° to direct the light beam exactly where you need it. A perk is also the motion sensor, which allows you to activate the flashlight with a simple hand gesture.

Solid workmanship

The Superfire HL23 headlamp is made of high-quality ABS plastic and is not intimidated by harsh weather conditions. It is IP44 waterproof, so you can use it in the rain or snow without worry. It also has the advantage of being drop resistant from a height of 1m. Rugged construction goes hand in hand with ergonomics - the flashlight weighs 53 g, and the adjustable headband allows you to adjust the product to fit the user.

Efficient power source

The device is powered by a 14500-type lithium-ion battery with a capacity of 800 mAh. This allows you to enjoy a 3-hour flashlight runtime, and then conveniently renew its power with the included USB-C cable. Forget about constantly buying new batteries!
