

Flashlight Superfire M17, 230lm, USB-C

Flashlight Superfire M17, 230lm, USB-C

Ref: 6974760350603

Superfire M17 searchlight

The rugged Superfire M17 searchlight provides stable illumination in all conditions. High-quality ABS is resistant to mechanical damage, moreover, the flashlight is IP43 waterproof and is not afraid of a fall from a height of 1m. The M17 provides light with 230 lm brightness and a range of 350 m, plus it offers three lighting modes and provides a comfortable, stable grip. Its runtime reaches 5 h.

Impressive power

The Superfire M17 is a great option for those who want to combine intense illumination and robust construction. The flashlight is equipped with a high-quality LED, which provides extremely strong, even light with a brightness of 230 lm and a range of up to 350 m. The device will therefore prove its worth during search or rescue operations and will guarantee excellent visibility in the field.

For all weathers

What distinguishes the Superfire M17 flashlight is, among other things, its extreme durability and resistance to damage. The device is made of high-quality ABS plastic, which is scratch-resistant, moreover, the flashlight is resistant to a fall from a height of one meter. Water resistance at IP43 level is also a plus - the product will be great on a foggy, rainy day.

3 modes of operation

Are you taking part in a search operation? Or do you want to broadcast a warning signal? The Superfire M17 searchlight offers 3 operating modes, so it will do the job in many different situations. You can use Weak or Strong mode, as well as Strobe, during which the bright light flashes at a high frequency.

Well-designed

The device is distinguished by its ergonomic design and provides a comfortable grip, so it won't tire your hand even during several hours of use. It also has the advantage of a powerful power source - thanks to the 2400 mAh battery capacity, the flashlight provides up to 5 h of operation. The built-in USB-C port allows you to conveniently renew energy, and a special light indicator will let you know the charging status.
