TWS Haylou Moripods ANC Headphones

Looking for lightweight and comfortable headphones that provide you with high-quality sound and cut out noise? Opt for the Haylou Moripods ANC, which offer ANC noise cancellation of up to -30dB and feature 10mm dynamic drivers. Enjoy up to 30 hours of playback time (with charging case) and forget about connectivity issues with Bluetooth 5.2. You can also talk freely on the phone.

ANC noise cancellation

With Haylou, you only hear what you want to hear. The headphones support ANC noise reduction up to -30dB. So you can forget about annoying noise and focus on the magic of sounds! There are also 3 playback modes such as Noise Cancellation, Standard and Transparent. This allows you to adjust the headphones even better to your expectations and decide whether you want to completely cut off the noise or listen to music without losing touch with your surroundings.

Sound at the highest level

Experience how great the songs you love can sound. The headphones are equipped with large, dynamic 10mm drivers, and they also support the AAC codec. As a result, they can provide clear, richly detailed sound, deep, powerful bass and ear-pleasing treble. They also perfectly emphasize the sound of vocals. With Moripods ANC you will rediscover your favorite songs!

They will prove themselves during phone calls

Moripods ANC will provide you with high-quality sound not only while listening to music, but also during phone calls. They are equipped with excellent quality microphones and support DSP noise cancellation, so they capture your voice fantastically, while eliminating unnecessary background noise. Mall, train or bus - now you can freely talk on the phone wherever you are.

Reliable wireless connection

Instant connection, enhanced stability and high resistance to interference - these are just some of the advantages of advanced Bluetooth 5.2 technology. Say goodbye to signal problems! Moripods ANC headphones will provide you with a reliable wireless connection. You can also take advantage of a special gaming mode that offers even lower latency. Enjoy dynamic gameplay and gain an advantage right from the start!

Even longer operating time

Uninterruptedly listen to your favorite songs at home, at work and while traveling. Don't worry that your headphones will drain too quickly and spoil your mood! Moripods ANC allow you to play music for about 8 hours if you use noise cancellation, or up to 9 hours if you turn it off. The included charging case lets you extend that time to 30 or 33 hours, respectively.

Designed for your convenience

The ANC Moripods are incredibly comfortable and lightweight - weighing only 3.9g each. They stay stably in your ears and won't fall out of them. You'll also find 3 pairs of interchangeable eartips in 3 sizes, so you can further customize the headphones to your needs and habits. The dedicated case is distinguished by its matte surface, which is extremely pleasant to the touch. Moripods ANC are also compatible with Android and iOS.

The most important functions at your fingertips

Enjoy the convenience of headphones - with Haylou, everything you might need is always at your fingertips. You don't have to look for your smartphone every time! Moripods ANC have built-in practical touch panels so that with just a few touches you can, for example, pause or resume playback, answer or reject a call, hang up, select noise cancellation mode, switch a song or enable gaming mode.
