Gaming headphones Havit GAMENOTE H2232D RGB USB+3.5mm

### GAMENOTE H2232D

Gamenote H2232D headphones are designed for players who require crystal clear sounds. Thanks to the RGB illumination they look exceptional and stylish.

### Functional and practical

The adjustable headband allows you to adjust and set the microphone according to your preferences. Thanks to the fact that it is made of durable material, you do not have to worry about damaging it during adjustment.

### Comfortable and convenient

The headphones are equipped with foam with shape memory, which makes them provide exceptional comfort of use, perfectly matching the shape of the ear. The whole foam is covered with delicate, protein skin, which is extremely nice for the skin.

### With a powerful sound

Two 50mm speakers built into the H2232D thanks to the double cone cone perfectly conquer the sound. Even at the lowest volume level, they provide a great acoustic experience.
