

Landing pad Sunnylife for drones 75cm (DJI-TJP03)

Landing pad Sunnylife for drones 75cm (DJI-TJP03)

Ref: 5907489609661

Sunnylife's 75cm drone mat/landing pad (DJI-TJP03)

Take care of the safe landing of your drone. The Sunnylife landing pad is made of nylon and is water and sunlight resistant. With a diameter of 75cm, it will work well for drones such as DJI Avata, Mini 3 Pro, FPV, Mavic AIR 2/Pro, SPARK, Phantom 3/4/PRO/V2.0/Inspire, and the included carrying case will make storage easy.

Durable construction

The mat was created from water- and fade-resistant nylon, so you can use it regardless of the conditions. What's more, the double-sided design in blue and orange will allow you to adjust its position depending on the color of the ground.

Convenience of use

In addition to the landing pad, the kit comes with a special case to store the mat and ensure safe transportation. In addition, in the package you will find 3 plastic mounting pins that will increase the stability of the mat.

Included
landing pad
case

plastic mounting pins x3
Manufacturer
Sunnylife
Model
DJI-TJP03
Material
nylon
