Dash camera DDPAI Mola E3 1440p

Ref: 6934915201983

DDPAI Mola E3 1440p dash camera

Ensure your safety while driving and gain peace of mind when leaving your vehicle unattended. The DDPAI Mola E3 dash camera is distinguished by high-quality video recording, and the technologies used take care of the clarity of the shots and real-time preview. The device also has a rear module for increased functionality. Convenience of equipment management is guaranteed by access to a mobile application.

High image quality

The Mola E3 is distinguished by the high quality of the captured shots. The front lens offers 2K (2560 x 1440) resolution, while the rear lens offers Full HD (1920 x 1080). The solutions used also preserve natural colors, so you won't have problems catching important details.

Safety and peace of mind

When traveling by car, the most important thing is complete safety. The DDPAI video recorder also has a rear module, so you'll equip yourself with a rearview camera. What's more, the 24-hour loop recording function allows you to keep your hand on the pulse while

leaving your car in the parking lot. The device automatically detects potentially dangerous events and records them.

More amenities

This is not the end of the conveniences that come with owning a DDPAI Mola E3 video recorder! The product features support for night mode, technology that increases image clarity during rain or fog, and anti-blinding protection. Bet on functionality that will make your life easier!

Convenience of use

The device features a 9.25-inch LCD touchscreen for simple and intuitive operation. You can also connect it to your smartphone via WiFi to gain convenient access to the recorded materials and comfortably manage the DVR's operation.

The kit includes:
