

## 4 in 1 Electric Shaver Kensen

4 in 1 Electric Shaver Kensen

Ref: 6953156300545

### Kensen 4-in-1 electric shaver

The Kensen electric shaver is a 4-in-1 device that will allow you to not only trim your beard, but also get rid of unsightly nose hairs and clean your face thoroughly. It comes with several heads to make this task easier. Thanks to its clever design, it adapts to the shape of your face and ensures precision. Moreover, you can use it both dry and wet. It's also equipped with a travel lock and is water resistant (IPX6), for greater freedom of use.

### Various applications

The Kensen product is not just an electric shaver. It includes several interchangeable heads, so you can use the device in a variety of situations. The nose trimmer tip will allow you to remove unsightly hair, while the head for sideburns will make it easier to style them. While the facial brush will thoroughly cleanse your face of impurities.

### Precise and safe shaving

The device has 3 movable cutting heads that smoothly glide over the face and adapt to its shape. In addition, the clever mesh design of the blades ensures a close shave without causing cuts or irritation.

### Water resistant

The heads of the Kensen electric shaver are IPX6 water resistant, so you can easily clean them and inhibit the growth of bacteria. What's more, you can use the device both wet and dry - however you're comfortable.

#### LED display

The shaver has a built-in LED display that will provide you with the most important information about the device's operation - just take a glance. From it, you'll learn about the remaining battery level or the travel lock enabled. The screen also displays charging status and sends a reminder to clean the head.
