Wireless Vertical Mouse Delux M618ZD BT+2.4G for left-handed

Delux M618ZD Wireless Optical Mouse for Left-Handed People

The Delux M618ZD Wireless Optical Mouse is designed for left-handed users. Thanks to its ergonomic design, it provides unparalleled comfort of use. You can adjust the DPI up to 4000 and it works surprisingly quietly. You can connect it to the device of your choice wirelessly - via Bluetooth 4.0 or 2.4G.

Customize it to your needs

Enjoy unparalleled speed and precision. The M618ZD is equipped with adjustable DPI up to 4000, so you can easily adjust it to your needs. The device is ideal for normal Internet browsing, at work, or even during a dynamic game.

Reliable wireless connection

You can connect the mouse to your computer wirelessly in 2 ways - via Bluetooth 4.0 or 2.4G, using a USB receiver. The solutions used ensure fast, stable and trouble-free transmission in almost any situation.

Quiet operation

The mouse works extremely quietly - you don't have to worry about it waking up your child. You can also use it in public places such as a library or a coffee shop without any problems. The annoying clicking noise won't bother anyone!

Durable battery

The device is equipped with a durable 1000mAh battery. This allows it to work for up to a week on a single charge, assuming you use it for about 8 hours a day. The mouse also supports a sleep mode to save power. To charge the M618ZD, simply plug it into a charger or laptop using a USB-C cable.

Ergonomic design

The M618ZD mouse will provide unparalleled comfort to left-handed users. Thanks to its carefully considered design, it allows you to relieve your wrist and avoid pain. So you can comfortably work, play games or check what's new on the Internet.
