

Mount with lanyard Sunnylife for DJI RC controller (MM3-GS38)

Ref: 5907489609869

Mount with lanyard Sunnylife for DJI RC controller (MM3-GS38)

Sunnylife handle with lanyard for DJI RC controller

The practical holder with lanyard will provide maximum comfort when using the DJI RC controller. Made of high-quality aluminum, the hook provides a stable attachment, moreover, it is durable and resistant to damage. The leather lanyard is also a plus, so you can free your hands and not worry about a possible fall of the controller. Importantly, you can adjust its length from 62.5 to 80 cm.

Thoughtful design

The holder is equipped with 3 sturdy hooks, so you can hang the leather lanyard exactly the way you like - you can use the two hooks, spaced at the sides, or attach the lanyard to the center hole. The accessory is extremely durable, so you don't have to worry about damaging or breaking it. In addition, the holder fits perfectly into the controller's design and does not obstruct the holes or ports.
