

Landing Gear Sunnlylife Spider-like for Mavic 3 (grey) M3-LG3

Ref: 5907489609968

Landing Gear Sunnlylife Spider-like for Mavic 3 (grey) M3-LG3

Sunnlylife landing gear lift for DJI Mavic 3 (M3-LG329).

The undercarriage boost increases the safety and stability of the drone during takeoff and landing. It increases them by 38 mm, and thanks to its lightweight design (50 g), it does not affect the flight of the DJI Mavic 3. It does not need to be disassembled for storage, and the silicone pads provide cushioning and add unique style to the device.

Hassle-free operation

The solutions used in the accessory allow for hassle-free installation and removal of the product, without worrying about damaging or scratching any of the arms. The upgrade does not block the vision and detection system.

Increased elevation

The distance between the ground and the drone, is increased by 38 mm, which ensures the stability and safety of the drone during landing. The legs fold outward for a fully stable and unobstructed landing. Meanwhile, the foldable landing gear allows for hassle-free transportation.
