

## Active stylus ESR Digital Pencil for iPad / Pro / Air / Mini

Ref: 4894240164945

Active stylus ESR Digital Pencil for iPad / Pro / Air / Mini

ESR Digital Pencil active stylus for iPad / Pro / Air / Mini (white)

The stylus is suitable for both writing and drawing. It will be perfect for students as well as creative workers. It works without the slightest interference or delay, and uses a power-saving mode. Thanks to palm rejection technology, you can freely rest your hand on the screen completely as you would on a piece of paper.

### Reliable performance

Now operating the tablet will become even smoother and more convenient than ever. The device works without interruptions and delays. And the palm rejection technology allows you to rest your hand freely on the tablet while writing or drawing, so you don't have to worry about accidentally exiting an application. To activate the stylus, you need to tap the touchpad 2 times.

### Precise operation

The stylus works at an adjustable angle - depending on which angle you use it, the width of the lines changes. The device does not cause delays or interruptions while working.

### Thoughtful design

The magnetic design of the device allows you to attach it to your tablet, which guarantees its stability and prevents it from getting lost. The device is extremely lightweight and the finish guarantees comfort during prolonged use.

### Long working time

The device has a powerful rechargeable battery that allows for a long working time. Just about 30 minutes of charging is enough to use it for about 6 hours. To save power, the device shuts off after 20 minutes of non-use. An LED light will let you know when the device is working.
